RMAEC RESPONSE TO Covid-19

In response to the health concerns surrounding the Covid-19 virus we are providing information regarding the scheduled RMAEC Training and LabCAT Certification sessions for the remainder of March and April. We are being diligent in how we are conducting business and keeping our facilities clean.

We ask any person who is not feeling well to call and reschedule their certification visit. Any persons who arrive and are exhibiting flu like symptoms or are coughing will be immediately asked to leave the facility.

We have hand sanitizer available for attendee's and will encourage limited hand to hand contact. We will also have disposable gloves available for anybody who would like to use them.

We will be eliminating any food which is usually available on the counters, where people can reach in and grab portions themselves (ie. fruit, bagels, etc). We will only have pre-packaged items available.

Diane will work with all to make the reschedule process as easy as possible.

Questions or concerns:

Tom Clayton
